The judging panel will consist of 1 SWCD employee and 2 community members. Judges, Tuscarawas SWCD employees and their immediate family members will not be eligible for the contest.

Technical Merit

Well-framed – *The photographer should be close enough to the subject to leave irrelevant or distracting items out of the shot.*

Properly Exposed – *Subjects faces should not be washed out or shadowy. Back-lighting, improper use of flash and incorrect exposure settings on the camera often causes exposure problems.*

Sharp and Clear – *The center of interest should be sharp and clear; however, not everything in the photograph must be sharp. Carefully adjusting your focus and correctly using shutter speed will produce sharp photos.*

Composition

Recognizable Center of Interest – *The photo should generally be well organized, so that the eye immediately recognizes one subject as the most important element of the picture. This element should be in a well-lighted area of the shot and should usually be in clear focus.*

Theme Appropriate – *Please be sure that the photo fits the given theme each year.*

Imagination and Creativity – *An interesting camera angle or lighting effect can make the difference between a technically good but boring photo and an award-winning photo. Many traditional photographic rules can be broken for the sake of creativity.*

All entries must be received by the Tuscarawas SWCD office by 4:00pm on Oct 4, 2019.
